Due Next Year

FRANKFORT, MOKENA AND NEW LENOX GET DDD AND NEW NUMBER PREFIXES

Nationwide direct distance dialing, enabling Mokena, Frankfort and New Lenox telephone users to dial many of their own long distance calls will be introduced in about a year. Illinois Bell Telephone Co. manager Don Memler, also announced this week that phone customers in the three communities and other nearby towns would get new 7-figure telephone numbers.

New Lenox telephone numbers will simply be changed to begin with 48, the numerical equivalent of the HU in the present HUXley numbers. In most cases, the rest of the number will remain the same. For example, HU 5-6740 would become 485-6740. All seven figures will need to be dialed to complete a local call.

479 - NEW MOKENA PREFIX Mokena telephone numbers will begin with 479. "Where possible 479 will be placed in front of present four-figure numbers," he said. "However, in some cases the complete number will need to be changed." All seven figures will need to be dialed to complete a local call.

469 - NEW FRANKFORT PREFIX

Frankfort telephone numbers will begin with 469. In most cases the last four figures of the number will remain as they are now. All seven figures will need to be dialed to complete a local call.

A telephone directory containing the new numbers will be delivered prior to the changeover.

With nationwide direct distance dialing, called DDD for short, customers in all three towns will receive one of the greatest advances in telephone science, according to Memler.

When DDD starts here, it will be possible to dial direct to telephones in places as far away as New York and California. Local telephone users will be able to dial over 76 million phones in over 30,000 communities.

"The reason for the new numbering system," said Memler, "is that the nation is rapidly outgrowing the telephone numbering systems used until recently. Major contributing factors are the booming population growth with its attendant increase in the number of telephones; new telephone services; and new types of telephones and telephone equipment.

The All-Number Calling system will almost double the

number of usable prefixes. "Studies and tests conducted by the Bell Telephone Laboratories' engineers show that seven-figure dialing has definite advantages - both present and future - over the two-letter, five-figure numbering system which had been the best plan up to this time."

Among the new system's advantages to telephone users are that telephone numbers can be dialed more easily and accurately. Also, it eliminates confusion between letters and numbers on the dial. For example, the letter "O" and the number "0" (zero), and the letter "I" and the number "1" (one) are particularly easy to confuse. Studies show that mispronunciation and misspelling of exchange names have contributed to the dialing of wrong numbers, especially on calls between cities.

Students Win Typing Medals

Carol Graf of Tinley Park and Nancy Seeley of New Lenox have been chosen to represent Mokena's Sacred Heart High School in a typing regional tournament.

Only perfect papers are accepted in the contest according to their teacher Sister Madonna, and there are over 310,000 high school typing students who have participated in the contest this year.

For their work, both girls have already received an award medal and they now will try for a higher award in the Region contest.

DRIVING DEMONSTRATION April 11 at Sacred Heart High School an insurance company will give a safe driving demonstration with emphasis on stopping time. Students will be tested on how quickly they can stop a car at various speeds, with emphasis on the time required to bring the car to a halt.

NEW LENOX TOWNSHIP MAKES ANNUAL FINANCIAL REPORT

Those residents of New Lenox who are interested in the financial operations of their Township Government will be pleased to note that in this week's issue there appears a long legal publication which lists all the Township income and expenses.

This legal is really three reports from Township Supervisor John Francis and Clerk Roy Minger in which they outline their expenditures and income from the Road and Bridge Fund, the Town Fund and the General Assistance Fund.

Although at first it may look rather complicated these New Lenox officials have shown clearly just where the money has gone and where it has come

from. All the receipts are from taxes and are paid to the township by the Will County Treasurer, however this was not quite enough to provide for the needs of the General Assistance fund and a tax anticipation warrant was taken out with the New Lenox State Bank, which cost the Township \$11.

The next largest item of disbursement was \$200 to Silver Cross Hospital. After all expenses, this fund closed the fiscal year with a total of \$1,284.66.

In the Town Fund, from which the major salaries are paid, the largest amount of money paid out was to George Marshall who collected a total of

Postpone Action On Wajchert Project

New Lenox Board Hears Citizen Protests On Apartment Rezoning

When the New Lenox Village Board held their session last Wednesday evening they found a group of some 20 visitors who were quite interested in a proposal for re-zoning which had been approved by the zoning board and submitted for Board action.

The visitors appointed Robert Facinelli as their spokesman and he expressed the views of the protesting parties.

The point of contention was a proposal to rezone a strip of property known as a portion of A.T. McIntosh's New Lenox Acres subdivision for multiple family dwellings. The protesting parties all live adjacent to the area and contended that such a rezoning would lead to ultimate devaluation of their own property. Joe Wajchert is the developer.

POSTPONE ACTION

Faced with such a strong protest from the taxpayers present the Village Board decided to postpone action on the matter until they could study it further. The homeowners organized a committee to meet with a similar committee from the board, Sunday and try and come to some conclusions on the matter.

The other major item of the evening's work was a discussion with Marty Flanagan, contractor for the Sunset Trails Subdivision. Flanagan asked the board to allow him a variation in the multiple dwellings which he is building so that the corner lots could be six family dwellings instead of 4. He agreed to allow the same 2000 square feet of space for each family, but felt he could utilize the property better with the

variation.

Because it would require an ordinance to change the zoning law, the Board chose to turn it back again to the zoning board and asked Flanagan to prepare a specific resolution for them to approve or disapprove after the zoning board acts on it again.

Along this same line, the Board passed an ordinance requiring builders of multiple family dwellings to provide both front and rear entrances for each building.

The Board also got its first look at a proposed roadway to a bowling alley project promoted by Richard McCarthy. The job includes filling an area and relocating a portion of Hickory Creek along the north edge of the Rock Island Railroad. McCarthy hopes to install the

road and then use the right of way for a sewer and waterline to his bowling alley project. McCarthy noted that this project could serve some 1000 people without requiring a lift station.

This survey will be turned over to the new city engineer, Robert Hamilton of Joliet, who was hired in this session for a period of one year.

PLAN LAW SUITS

Of special interest to those New Lenox residents who have not hooked into the new sewers where city ordinance requires it, is the fact that the Village Board directed Village Attorney William Penn to review the list of delinquent property owners who are required to hook on the new sewers and then either send them a notice of a lien on their property or notice

of a law suit, if they fail to comply with the village ordinances.

Penn was also re-appointed attorney for the village at an annual salary of \$800 plus \$100 for his work as plan commission attorney.

In order to pay the bills, the board transferred \$3000 from the sewer revenue fund to the general fund as suggested by the treasurer.

Trustee Eugene McGowney said that the streets are in good shape in New Lenox, but that the volume of work really requires a full time street department man. The Board agreed to discuss the matter when the annual budget is laid out in the next few weeks.

set of first grade materials. Attending a half-day clinic to explain and exhibit these will be Miss Isabella Harmening, 1st grade teacher, and principal Leroy Wright.

William Scheidemantel, the school architect, attended the session and talked about the progress of the new addition. Due to bad weather, some of

the work has been delayed and the rooms will not be available for use in the current school term but they will be ready for next fall.

LeRoy Wright, principal, attended a session with other principals at New Lenox last Wednesday on the educable and mentally handicapped.

Mokena Pastor Declines Call To Chicago Church

Immanuel Lutheran Congregation Asks Him To Remain

At the urgent request of Immanuel Lutheran Church the Rev. Dr. A.J. Bueltmann has declined the call to Christ Lutheran Church of Logan Square, Chicago. Christ Church numbers a thousand baptized members; a Sunday school of 250 and a Christian Day School with 135 pupils.

The members of Immanuel Lutheran Church in urging Dr. Bueltmann to remain in Mokena pointed out that during the three years and three months he had been with them the congregation had experienced a 30% increase in communicant membership and a 50% increase in Sunday school enrollment. They further pointed out that progressive programs had been established in various areas of church life, that a new parsonage had been built and was already 75% paid for, and a "Building for the Future" committee was planning a new church. His activities on the circuit level were also lauded. It was the conviction of Im-

manuel congregation that his departure at this time would seriously hamper the church's programs in which he was active.

Dr. Bueltmann acceded to the request that he remain and returned the call to Christ church.

NORMA HEIDRICH, daughter of Mr. and Mrs. William Heidrich, 925 Ogden road, New Lenox, is a candidate for queen of Beloit college's 13th annual Campus Carnival. Miss Heidrich is a sophomore and a member of Delta Gamma sorority.

Pick April 28 For L-W Bond Issue Referendum

In their session of Thursday, April 5, the Lincoln-Way High School Board of Education set April 28 as the date for the referendum on a proposed \$750,000 bond issue to build an addition to the present high school plant.

Thursday night the board met with the central citizens committee for a discussion of the proposal and set this evening, (April 12) as the night for a meeting of all interested persons who would like to discuss the bond issue proposal.

During last week's session of the board there were no expressions of opposition to the referendum.

DISCUSS JR. COLLEGE Members of the board expressed their hope that voters will not confuse the proposal

for adding to the present high with the Junior College referendum and emphasized that the two issues are not connected in any way.

In last Thursday's session there was a long discussion of the possibilities for getting out of the proposed Junior College District if it may be approved in the expected referendum. As best could be determined, no action can be undertaken

until the district is actually included as a part of the Junior College program, and then it will possibly be remedied by court action. Both the Cook County and the State Supt. of Instruction have said they believed that Lincoln-Way could pull out of such a Junior College District if they are forced into it by a referendum, but no guarantees were made.

On Second Thought

By GLENN F. LOGAN

Had a letter the other day from a friend in Kansas City. "Isn't the weather wonderful?" he wrote. "It is such a relief to see the ground once more and to think that perhaps we have seen the last of the snow and ice that has made this winter such a rugged one. "But now the sun is shining, the sky is blue, and the birds are starting rehearsals for their spring and summer concerts and the green things are coming out of hiding. "Yes, this is wonderful weather--the only thing to worry about now is that the tornado season is practically upon us."

The federal government has a tornado reporting center at Kansas City. Observers from distant places call in when they

sight those sinister, slithering, weaving funnel-shaped clouds, giving the location, the time and the direction of travel. And in turn the area affected are warned and people alerted. It is trifle wearing on the nerves, however, to hear sirens wailing in signal that a tornado is approaching and over the radio one gets a detailed account of where it is, what it is doing and where it is likely to hit.

Tornadoes are freakish things and quite unpredictable. They may touch down and sweep along the ground for a mile or they may swoop down, touch, lift, touch and in this erratic manner go hippity-hop for blocks, flattening a house here and sparring one there, probably next door...lifting a building and setting it back again on the same spot...and doing the 101 other crazy things one may expect from a tornado, over and above its deadly dedication to destruction of life and property.

The south and southwest have always been the hunting grounds of tornadoes but in comparatively recent years they have ranged far afield in search of new prey.

There was a time not too long ago when thunder storms were just that in northern Illinois, Michigan, Wisconsin and the East, including New England, and one never gave a thought to the fact that thunderstorms spawn tornadoes.

In the states along the Atlantic coast the force of the hurricane is not uncommon but tornadoes were something that people living there just read about.

Occasionally a twister hit in southern Illinois and once in awhile one struck in the north

but of late years during the spring, summer and early fall, tornado alerts have become common in this section and several of them have hit.

Tornadoes usually come out of the southwest and travel northeast but not always. The cloud itself does not travel fast but inside the wind is swirling at a tremendous rate of speed...hundreds of miles per hour. One can escape a tornado by driving across its path because its path is not a wide one but if one can't get away the best thing to do is get out of the car and into a ditch, lie down and hope you don't get picked up. Shelter underground is best and if tornadoes become more frequent in this region the "cyclone cellar"--as it is called--is apt to make its appearance here. And maybe with some fixin' here and a little bit of fixin' there one could also fix up cellar as a fallout shelter--the main thing tho is to build it for twisters. Such storms pass quickly but in the passing...BROTHER--THERE! A good cellar is a good thing.

Let us hope that this will be known as the year of no tornadoes. Really we don't expect to get away without some warnings and probably a tornado or two in northern Illinois but we hope they hit in open spaces and lift when they come to places where folks are.

We don't need tornadoes yet to teach us that life is not just a bowl of cherries.

Dear Editor:

As I was paging thru your newspaper sent to me by my parents I noticed news of Servicemen. I also am a Serviceman, serving in the U.S. Navy. I'm aboard the U.S.S. Valley Forge LP8 homeported in Long Beach, Calif. I am a machinist Mate Fireman.

My ship is leaving on April 16 for a nine month cruise through the Far East. We plan stops in Japan, Australia, Philippines, Hawaii, China and other foreign ports.

I would like to know if it is possible to have a subscription of your paper sent to me aboard the Valley Forge. I am interested in this town, I also plan to raise my family in this swell town. I would appreciate this very much. It's home for me.

Thank you,

Business & Finance

BY MAURICE P. ANGLAND

The stock market, as a whole, has been showing no decisive trend either up or down, for quite some time.

It is noted that quite often the stocks attracting the most attention, are those which have an institutional appeal. Analysts are pointing out that aside from market value increases in their portfolios, pension funds are growing at about \$4 billion per year and around half of this sum is being put into common stock.

New York State has a new law permitting insurance companies to put half of funds in group annuities into common stock. Some investment men note that in certain states, Mutual Funds are legal investments in connection with Probate Court matters. Mutual Funds which are usually preponderant in equities are eligible for bank investment in some New England states as well as being legal investments for estates in an increasing number of states.

Mutual Funds with their wide diversification and usually in investment grade stocks, often have an appeal when the markets are in an indecisive stage. Mutual Funds and other institutional investors which have well staffed research organizations are able to operate profitably in highly selective markets.

The U. S. News and World Report devoted an article to current investment problems. This article is a composite of investment advice from leaders in the field. Mutual Funds are suggested as a preferred investment vehicle for many comparatively small investors.

Some of the advice points to the advantage of growth in well chosen firms which pay out relatively small cash dividends, but re-invest earnings in new plant, research and equipment. This, of course, is rather an obvious suggestion, but not easily achieved without adequate aid in investment analysis.

Frankfort Women Plan A Big Swedish Smorgasbord

As sure as April brings showers and flowers, so does it bring the ladies of the Frankfort Methodist Church together to plan their annual smorgasbord.

This year it will be called the "April Showers Smorgasbord." As always the favorite Swedish dishes will be served, such as: stekt kulkeen (baked turkey), stekt shinka (baked ham), kokt rakor (cooked shrimp), kottbullar (meat balls), rice pudding and lingonberry sauce to name a few. Because Mrs. Alois Bogdan's hunter's stew was so popular year before last, it has been added to the menu. There will be salads, dressings, mainstay dishes like baked beans,

macaroni, and treats like hering and stuffed eggs, homemade breads and rolls, and for dessert--cakes, all beautiful and delicious.

Saturday, April 28 is the date and serving times are promptly at 4:30, 5:30 6:30 and 7:30 p.m. Reservations must be made in advance from Mrs. Joe Karkos at Mokena 5707, from Mrs. Doris Erdman at HU 5-6612, New Lenox, Mrs. Irene Johnson at PI 8-1742, Park Forest; Mrs. Richard Goetsch, 5581 Frankfort or Katharine Heisner Frankfort 5187. Adults admission is \$2 and children 1 with pre-schoolers 50¢.

A special added attraction to the Smorgasbord is the gift shop featuring handmade and embroidered articles, floral decorations and home made candy.

Yellow And Green
Are 1963 State License Colors

Yellow numerals and lettering on a dark green background will be the color combination for Illinois' 1963 motor vehicle license plates. Secretary of State Charles Carpenter announced today.

This combination provides a sharp contrast with the orange and white 1962 plates, and will not be in conflict with the colors being used by other middle western states.

"Land of Lincoln" will appear across the bottom of the plates and "19 Illinois 63" across the top.

We regret to report that O. J. Trimmer of Lander (Wyo.) lost out in the race for presidency of the Wyoming Barbers Association. The justice of the peace in St. Marys, Pa., is Harry C. Law. Congratulations to the Exchange Club in Tulsa, Okla. The president is Mrs. Woodrow Wilson, ably assisted by publicity chairman Mrs. George Washington.

PUBLIC NOTICE
TO WHOM IT MAY CONCERN:
Please take notice that on April 23, 1962, at 8 P.M., in the New Lenox Fire Station, the Zoning Board of Appeals will consider the petition of Donald Aldridge, of 124 W. 4th Street, New Lenox, Illinois.

The relief prayed for is a variation in the width of the side yard, so as to allow Mr. Aldridge to construct a bedroom 8 feet from the side yard where a 10 foot side yard is required. Mr. Aldridge was 8 feet from his neighbors property which complied with Ordinance #21. The width of his lot was 52 feet, of which only 15% of the width is required as a side yard. He then purchased another 20 feet making his lot 72 feet wide. As a result the 8 foot side yard is not sufficient.

R. J. McCLEARY
Secretary, Zoning
Board of Appeals

SAAAAAAFE - Charley Clark, Lockport shortstop, beat out a grounder against Carl Sandburg last Friday despite a long stretch by Eagle

Porter Hurler Stops Sandburg Friday 4-1

Last Friday afternoon in their opening game of the 1962 campaign, Lockport's varsity baseball team used powerful pitching to beat Carl Sandburg's Eagle hardball squad 4-1 on the LTHS diamond.

Lanky Chuck Ballentine held the Eagle hitters to one hit and struck out 18 batters. The Porters managed only four hits themselves, all in the first

inning. The scoring came when Pete Fulton of Lockport rapped a homer after both Bob and Chuck Clark made it on base with singles. Nick Friend then slipped across the plate on an error after advancing to third on a pair of walks and a fielder's choice.

Rich Cello of the Eagles got their only hit for the night

and that was a long fly ball to left field that dropped behind the left fielder and which scored Al Budding. Budding got to first when he was hit by a pitched ball, and moved to second when Jerry Pech ground out. Basworth, Magre and Olson all pitched for Sandburg and Ballentine went all the way for the Porters.

When selecting evergreens, be sure the roots are well balled and wrapped. Plant the tree as soon as you get it so that it will have ample time to establish roots before new growth starts.

Junipers, often called cedars are the most commonly planted evergreens. However, they need sunlight and are very susceptible to red spider and bagworm attacks. Andorra, Sergeant, and Pfitzer and low growing or spreading types. Kenner and Kettler red cedars are upright and may get quite tall. All junipers are medium-sized evergreens, growing about five feet tall, and round or ball-shaped. They do not grow in the shade, and are often used as informal accents.

Firs, pines and spruces are among the larger evergreens. The concolor fir is tall and resembles a blue spruce, but has much softer leaves. White pines are valued for their soft leaves and horizontal branches when they mature. Blue spruces vary in their color, but the varieties Moreheim and Kostar are quite constant and are very attractive.

Hints For Homeowners

BY: JAMES FIZZELL

If you intend to plant flowering shrubs this spring you should plant them right now. Shrubs planted later than mid-April will probably have leafed out, and all of the plant's food and energy will go to support the leaves, causing the plant to establish a weak root system.

For landscaping today's homes, use dwarf-type shrubs. Since dwarf flowering plants are usually less than four feet tall, they complement the modern architecture of ranch-type homes and similar dwellings.

When selecting shrubs, choose varieties that are easy to care for. They should resist most common insects and diseases and require little pruning and watering. Ask your nurseryman about each shrub's characteristics when you are shopping for plants, or consult a lawn and garden magazine.

DWARF FLOWERING QUINCE: Sometimes known as the "firebush," this shrub reaches a maximum height of 3 feet. It blooms in early spring before leaving out and produces red, orange or pink flowers. Although it prefers full sunlight, it will tolerate some shade.

DENSE HYPERICUM: This shrub produces yellow flowers that resemble the buttercup. It has a dark green, narrow leaf about 1/2 inch wide and 2 inches long. Maturing to a height of around 2-1/2 feet, it prefers full sunlight.

KELSEY RED OZIER DOGWOOD: This variety of dogwood has a large, dark green leaf that is deeply veined. When planted against redwood buildings or fences, it produces a striking effect. And in the winter the twigs are an attractive red color. It seldom grows taller than two feet.

GARLAND SPIREA: Maturing at a height of around four feet, this variety has the characteristic drooping appearance of all spirea. It produces a lovely white flower and blooms before leafing out.

ANTHONY WATERER SPIREA AND FROBEL SPIREA: These two varieties are very similar. They bloom in early June, producing many pink flowers. If the flower heads are cut off immediately after blooming, this shrub will flower again in August.

Evergreens can also be planted in spring, if they are dug before new growth starts.

Yews are generally considered the best kind to plant. They are green the entire year, and are particularly resistant to insect and disease attack, and grow well in either sun or shade. Dense, dwarf, and spreading yews are excellent, as fillers and accents. Hatfield and Hicks yews make very fine hedges, and take trimming well.

LETTERS TO THE EDITOR

Dear Editor,

Once again, it is Easter Seal time, and I would like to relate some experiences I have had regarding them.

I have spent 20 years, off and on, in government and pri-

vately owned hospitals, and have received help from the Easter Seal Foundation as I have been handicapped since birth.

I have seen children as happy over a walker, brace, or other equipment as most children are over a new bike or toy. This is due to the fact that these children realize that without this equipment they might never walk or run.

The Easter Seal Foundation pays for this equipment, as well as physical occupational,

and hydro-therapy.

If Easter Seals can do so much good, providing doctors, nurses, therapists, and equipment, I think each of us can, and should, give to the foundation even if you can afford only a few pennies; for pennies, nickels, dimes, and quarters add up to thousands of dollars to help crippled children and adults if each of us contributes.

Thank you,
Hama Hewit

MRS. ALBERT KRUSEMARK III

Tamara Ottinger Becomes Mrs. Albert Krusemark III

In a double-ring ceremony performed by the Rev. E. Bizer in St. Peter's United Church of Christ of Frankfort at 7 p.m. March 31, Tamara Kay Ottinger became the bride of Albert H. Krusemark II.

The new Mrs. Krusemark is the daughter of Mr. and Mrs. Max C. Ottinger, Thorntown, Ind. The groom is the son of Mr. and Mrs. A.H. Krusemark of Frankfort.

The bride was escorted to the altar by her father. She wore a gown of white silk tulle with a train, featuring a bodice of Chantilly lace, embroidered with sequins and pearls. Appliques of lace trimmed the

bouffant skirt, which extended into a chapel train.

Her elbow-length veil showed from a crown of imported orange blossoms and aurora crystals and she carried white orchids and stephanotis. She also wore a platinum starfire cross with a diamond center.

Mrs. Eric Bizer was organist and Scherill Weichbrodt was the vocalist.

Church decorations of palms and bouquets of gladiolas and mums were set off by the candlelight ceremony in which Pamela Stapleton of Chicago was bride's maid and Susie

Krusemark and Jill Ottinger, sister of the bride, were maids of honor. Robert Tewes was best man with Al Mager and Danny Owen as the groom's attendants.

The bride's mother wore an apple-green silk sheath with a white headpiece, green veil and a pink orchid corsage. The groom's mother wore a powder-blue silk organza gown also set off with a pink orchid corsage.

A reception following the ceremony was held in the church for some 350 guests. Handling the reception formalities were Heather Kinsey, Kathy Hobbs and Mrs. Robert Tewes.

The couple took their honeymoon trip during spring vacation at the University of Illinois where both are students there. She is a member of Psi Iota Xi sorority and he is a member of Theta Chi fraternity.

The Roger Frantz's had friends and neighbors in for a get together after the Homeowners dance.

What's New In Local Business

After four days of intensive judging by a panel of 23 top retailing executives, National Tea Company of Chicago, was selected as the nation's "Brand Name Retailer-of-the-Year" in the Food Store-Class I category. The store topped all others throughout the country in this category, competing in the 14th Annual Competition sponsored each year by Brand Names Foundation, Inc.

The National Tea Company had won Certificates of Distinction in the Competitions of 1950 and 1951.

The Bronze Plaque awarded for this achievement will be accepted by Mr. N. S. Stapleton, president of National Tea Company, at a gala Awards Banquet to be held on May 17 in the Grand Ballroom of New York's Waldorf-Astoria Hotel, where more than 1500 business and civic leaders will be gathered to honor the winning merchants.

Will County 4-H Planning

Share The Fun

Will County's 4-H Share-the-Fun Festival will be held Friday, April 13. The 4-H talent event will be at Lincoln-Way High School and is scheduled to start at 6 p.m.

Every local 4-H club has been invited to take part. The club members can enter vocal, stunt, instrumental, or dance classes. Individuals can also take part in a master of ceremonies division. A master of ceremonies and local club act will be selected by three judges. The top act and m.c. will represent Will County at the state 4-H Share-the-Fun Festival held at the Illinois State Fair, Springfield.

This 4-H Share-the-Fun gives 4-H'ers an opportunity to plan and organize a project. The event provides members a means of displaying their musical or dramatic talents. Performing before an audience is another experience of the county 4-H event.

Interested persons are invited to attend the county 4-H event.

The public is invited. There is no admission, but each family is asked to bring a covered dish for the supper. The Foundation is located at 127 th St. and Southwest Highway.

The Passion Play is given every ten years at Oberammergau, Germany, and was seen by the Councils on a trip to Europe in 1960.

Two Men Die As Plane Crashes Near Orland

Two men were found dead Saturday morning in the wreckage of a light plane which crashed at 94th Ave. and 154th St.

They were identified as James Breakey, 24, of 5233 W. 64th Pl., a mechanic for American Airlines and Thomas Reynolds 26, of 4 E. 111th St., an assistant for a Blue Island meat packer.

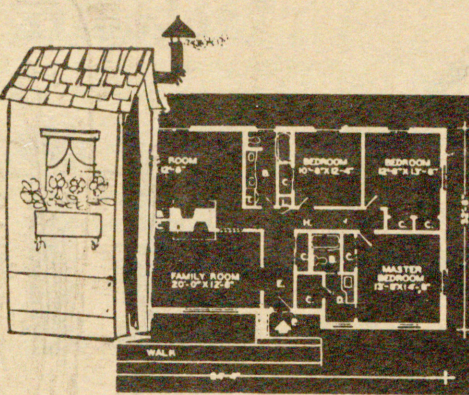

The men, both licensed pilots, had rented the single engine, two seater plane from Suburban Flying Service and had taken off from Howell Airport at Route 83 and Cicero Ave. at approximately 5 p.m. on Friday. They had planned to fly in the vicinity of the airport and had less than three hours of fuel in the tank according to officials.

A ground search was begun at 8 p.m. Friday when the pair failed to return. Saturday morning, just before a search by the Civil Air Patrol was to begin, Albert Zum Mallen, operator of the flying service, spotted the downed craft from the air.

When authorities reached the scene, both men were dead.

The first American Baptist missionary sent to Japan—the Rev. Jonathan Goble—was the inventor of the jinrikisha, or "ricksha," in 1870.
